

NTR Model School, established in 2005, is run under the aegis of NTR Memorial Trust and caters education to residential wards of needy parents for classes V to X in E/M on co-educative basis with a well designed curriculum. The supporting infrastructure plays a significant role in the education of thousands of students. Honouring our heritage and tradition, innovative & quality educational services are extended to its wards to make learning for life.

NTR Model School partnered with Acclaim Global Education, a subsidiary of Star Tech Group, USA to improve critical thinking and analytical thinking foundation skills in our students. In this Avatar CTF project, we had the opportunity to have very high quality teachers from USA taking LIVE classes twice a week with our students in a twelve week course model. In addition to our students, there were three additional schools at the same time learning together with our students. In twelve weeks, we have noted remarkable communication and thinking ability improvement in our students.

This experience has shown that our students, regardless of their financial or family background, once they have the opportunity to actively engage and discuss with world class teachers, that exposure gives them a lot self confidence with improvement in their communication and thinking skills. This Critical Thinking Foundation courses in my opinion are very important to prepare our students for the 21<sup>st</sup> Century workforce. I would like to recommend these courses not only for students but also for the faculty in order to strengthen our teacher's skills.

Thank you.

Yours Sincerely,

Y Mohan Rao

Chief Operatind Officer
