

NTR Model School is an institution operated by NTR memorial trust since 2005. This was established by the Present Chief Minister of Andhra Pradesh Sri Nara Chandra Babu Naidu Garu with a noble cause of rendering education to the under privileged children of the Society.

As part of the academic excellence we have incorporated an additional programme to high school students from USA which is sponsored by the Acclaim Global Education-a subsidiary star tech group. This course was designed to enhance the critical thinking and English communiqué skills for a period of 12 weeks during the academic year 2014-15.

The classes which attended this program were heterogeneous in the standard of their English language. But by the end of this program we could note a lot of transformation in children in the form of their increased self-confidence, critical thinking, zeal to learn and their communiqué skills. This helped even to improve their academic performance.

Hence, I suggest that this kind of exposure to children at this age will definitely sharpen their skills and make their journey with an ease to achieve their ambitions in further career.

With Regards
